Dates to remember

- Week beginning 23rd January – Science week in school

Winners of last week's the Golden tickets

Our stars of the week:

This week's certificates were teacher's own choice.

Congratulations to all!

The winning house this week was St Andrew's.

Y4 visit to the Central Library

Year 4 really enjoyed their visit and completed science activities linked to their subject of sound. They made harmonicas to examine vibrations and how they link to sound.

Science week

Next week in school, we have some very exciting events planned. We have The Shooting Stars Circus Show with workshops, robotic workshops and a whole school planetarium experience. Lots of fun for everyone!

This week's Golden Ticket winners

Information from Manchester City Council:
Neighbourhood Winter Support Booklets

We know this Winter will be hard with the cost of living crisis, but there is lots of support out there in Manchester if you do need it. To help local people, Manchester Local Care Organisation's integrated neighbourhood teams across the city have worked with colleagues at Manchester City Council and the voluntary sector to produce a series of neighbourhood service guides which you can now access online. The booklets outline much of the local support that is available across each neighbourhood. These include food banks, warm hubs, befriending services and other local offers. There are 11 booklets in total that cover our 12 neighbourhood areas (our two Wythenshawe based teams have provided a combined booklet).

All the booklets are accessible via www.manchesterlco.org/winter.
