

**Friday 3<sup>rd</sup>  
February 2023**

### Dates to remember

- 10<sup>th</sup> February wellbeing afternoon for children in school
- 17<sup>th</sup> February – school ends at 3.15pm
- 27<sup>th</sup> February – school opens

### Winners of the Golden tickets

No certificates this week – each class celebrated their achievements in science week.

The winning house this week was St Andrew's.

### Y6 Maths roadshow!

Year 6 had a visit from Loreto High School's Year 13 maths students. They supported our year 6 children to play maths-reasoning games. They will be back!

### Celebration Assembly

Our celebration assembly this week was all about our Science week.

Each class took this opportunity to tell the school what they had been up to:

### **Reception - What can we do at home to help save Planet Earth?**

### **Year 1 - How can what we wear help save Planet Earth?**

### **Year 2 - How can the way we travel help save Planet Earth?**

### **Year 3 - How can what we buy help combat Climate Change?**

**Year 4 - How can what we eat help combat Climate Change?**

**Year 5 - How can recycling help combat Climate Change?**

**Year 6 - How can we persuade the World to combat Climate Change?**

**Breakfast Club – a polite reminder**

Our breakfast club is subsidised and we are adamant that we will not increase the very reasonable charge of £1 per morning per child. Payment is preferably through Parent Pay, but we will accept cash in an emergency.

We do not allow parents to build up a debt, but should you be experiencing any difficulties that you feel we may be able to support you with, please contact Ms Valentine.

**Information from Manchester City Council:**

**Neighbourhood Winter Support Booklets**

We know this Winter will be hard with the cost of living crisis, but there is lots of support out there in Manchester if you do need it. To help local people, Manchester Local Care Organisation's integrated neighbourhood teams across the city have worked with colleagues at Manchester City Council and the voluntary sector to produce a series of neighbourhood service guides which you can now access online. The booklets outline much of the local support that is available across each neighbourhood. These include food banks, warm hubs, befriending services and other local offers. There are 11 booklets in total that cover our 12 neighbourhood areas (our two Wythenshawe based teams have provided a combined booklet).

All the booklets are accessible via [www.manchesterlco.org/winter](http://www.manchesterlco.org/winter).
